

Session Key

Environment	Energy	Health	Liquid	Gas	Filter Media	Membrane
-------------	--------	--------	--------	-----	--------------	----------

Friday, October 7

7:00- 5:00 pm	Registration						
7:30 am - 5:30 pm	Expo Open						
8:00 - 8:40 am	PN6. Public Awareness of the Energy Benefits of Filtration, Val Hollingsworth						
8:40 - 9:20 am	PE5. Filtration Solutions for Sustainable Environment (Air), David Pui						
9:20 - 9:50 am	Panel Discussion on Environment (Air)						
9:50 - 10:05 am	Coffee Break - Expo Hall						
10:10 - 10:40 am	KG10. Effectiveness of Air Purifiers to Improve Indoor Air Hygiene	KM11. Gas Separation by Membranes Based on Cyclic Pressure Swing Permeation			KE12. Stimulus Responsive Fibrous Depth for Protein Separations		
10:40 - 11:10 am	KL13. TBD	KF14. Is There a Place in our World for Filtration in 2050?			KN15. Novel Tools for Improving the Energy Efficiency & Proces Control of Vacuum Filtration		
11:10 - 11:40 am	KE16. Technology Directs for the Filtration Industry	KM17. Artificial Water Channels - Toward Biomimetic Membranes for Desalination			KN18. Membrane Reactor for Energy Production: Potential Materials for Gas Molecules Separation		
11:45 - 12:35 pm	Lunch - Expo Hall						
12:40 - 2:10 pm	L3. Cake Filtration - Cake Structure	G3. Automotive Filtration	F3. Media Design	M3. Gas Separtions	E5. Nanofibers	E6. Environmental/ Filtration Technologies	N1. Innovation in Filtration & Coalescing
2:10 - 3:40 pm	L4. Advances in Filtration Equipment	G4. Filter Testing	F4. Nanofiber	M4. Membrane Fouling	E7. New Technologies	N2. Coalescing	
3:45 - 3:55 pm	Coffee Break - Expo Hall						
4:00 - 5:30 pm	L5. Classification & Separation	G5. Indoor Air Filtration	F5. Advanced Nanofiber	M5. Membrane Bioreactors	L6. SLS Selection & Design	N3. F & S for Fuel Cells & Energy Applications	N4. Expression/Drying
5:35 - 6:45 pm	Student and Industry Posters - Sapphire North Foyer
